I'm trying to write a script that takes as an input a dataframe of 10x4 dimensions and then gets each column of that dataframe and sorts it as a list. So far the script goes through the dataframe and it finds the column name. df = pd.read_csv('/Users/kaligortas/Desktop/test.csv') #print (df.columns) for col in df.columns: #print (col) print (df['{}'.format(col)]) The output comes out like this: ['A', 'B', 'C', 'D', 'E', 'F', 'G', 'H', 'I'] ['1', '3', '5', '7', '9', '11', '13', '15', '17'] ['2', '4', '6', '8', '10', '12', '14', '16', '18'] ['3', '5', '7', '9', '11', '13', '15', '17', '19'] ['4', '6', '8', '10', '12', '14', '16', '18', '20'] This is what I want

The "For the Love of Hockey" Miniseries Washington hockey fans have a new animated series on the Cartoon Network called "The 'For the Love of Hockey' Miniseries." It follows a group of students, who are the

nephews and nieces of NHL players, and their quest to win an inter-school championship in hockey. The show is a part of the "For the Love of Hockey" project, which is in it's second year and has raised nearly $2 million for Wounded Warriors and Wounded Warrior Project. You can check out more about the show here: In addition to the inter-school championship, the Miniseries will feature a trip across the pond to England to play the English Fledgling Riveters (or Riveters as the Canadians call them). The cartoon starts with the EFR ( ) winning the World Championships by a score of 8-7 in overtime over Canada in overtime! Never miss a local story. Sign up today for unlimited digital access to our website, apps, the digital newspaper and more. So to continue the story, the EFR are returning to Seattle, but their bus is a little beat

up from the ride. So when they are let out in Seattle, the leaders of the team tell the girls they need to work on their skills. But they don't think they can practice since they're still in the middle of a championship. A guy in the group suggests that 1cdb36666d
