
Bootloader Error Id 19 Miracle Box 11 ((EXCLUSIVE))

bootloader error id 19 miracle box 11 After trying to flash through miracle box 11 with firmware version 1.19 to version 1.40 and after installing bootloader ID 19, all ports do not see each other. On firmware 1.40 it is no longer being stitched. Maybe you need to flash through another version of miracle box 11? I will be grateful for the answer. Hello Alexey. In fact, it's not the bootloader, but the firmware itself. And you need to flash in accordance with the boxing model. If you do not know what firmware, then I would recommend reading here: Miracle box firmware 11.
